AR SHELVING building the future

SINCE 1966

We are specialized in metal utility shelving. We manufacture top quality products to aid in the organization of the home, office, garage and business. Our mission is to provide our customers with the best products at affordable prices; with the aim of achieving a cleaner more sustainable environment. We are world leaders in continuous quality improvement and product innovation.

Why?

We work to identify the needs of our customers and provide a range of solutions and options

Our knowledge and the continuous innovation in product high quality design make us one of the leading companies in the sector worldwide.

We improve people's lives
by creating orderly
spaces".

The strength of a large group

SINCE 1940

Arania Group is one of the **main European references in the field of steel transformation**. Born in 1940, its continuous commitment to human capital and technological vanguard has made the Group one of the largest exponents of the sector and has consolidated its **presence in major international markets**.

Arania Group's figures constitute its best guarantee: **400,000 tons per year** of processed steel; commercial presence in more than **65 countries; export ratios of 80%** and more than **850 employees**. It is an European reference in all its industrial activities.

European benchmark in steel processing".

Garage use

INDUSTRIAL TECHNOLOGY FOR DOMESTIC USE

Range of shelving with technology and industrial design for domestic use. Adapted to all customer needs. Find what best suits your needs:

"GARAGE SERIES"

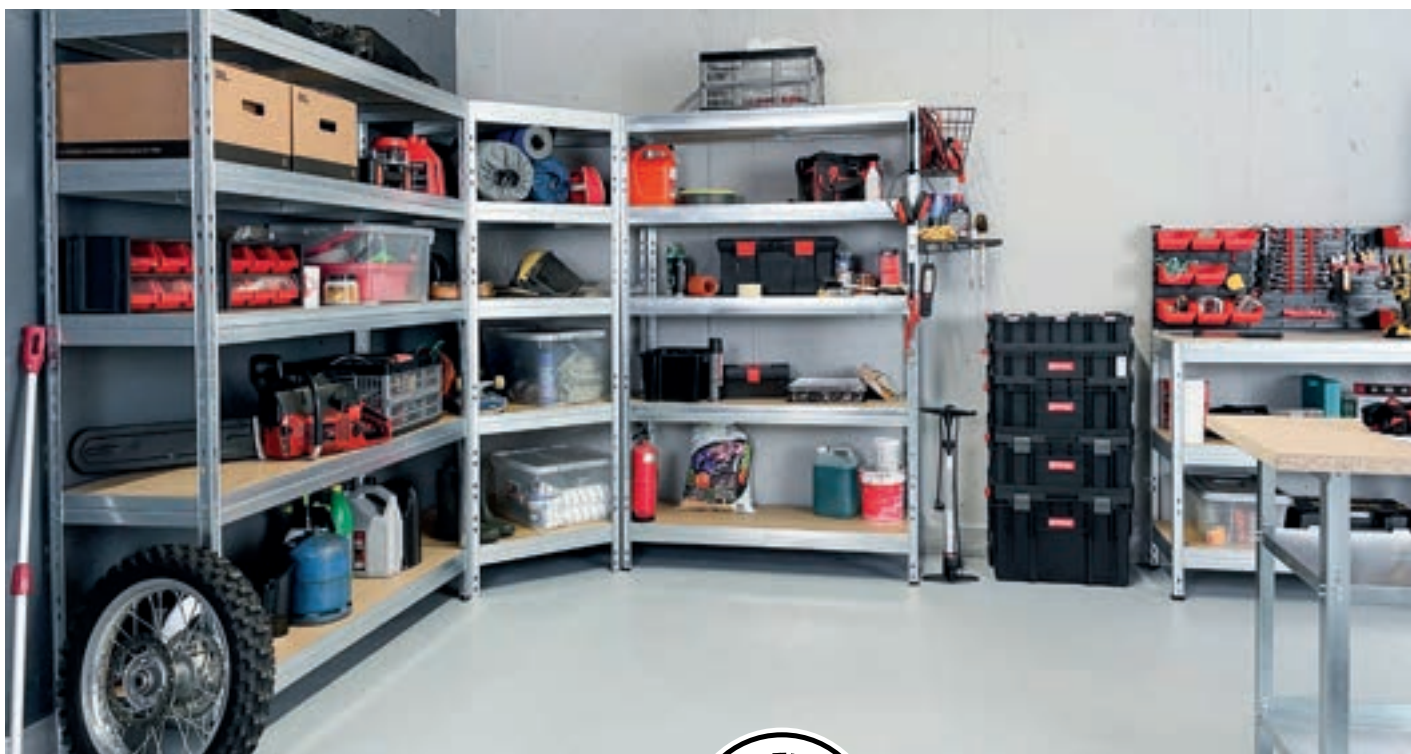

Perfect for those who are looking for a comprehensive solution, consisting of shelving + accessories.
